Date	Creator	Comment	Id
17-Oct-2026	Thashi Godahewa	**Retested 16 Oct 2026:** entering -$50 now shows "An internal error has occurred and has been logged." instead of "Bill Payment Complete". [Balance unchanged / increased.] The payment is no longer accepted, but negative amounts still aren't validated: the server fails instead of showing a validation message. The defect has changed, not been fixed.	459
